*Re.: Public availability of large scale CDM methodologies in MS Word format*

Dear Mr. Enderlin,

Thank you for your letter to the CDM Executive Board dated 28 September 2009. We have made your letter available to the Board.

On behalf of the Chair of the Board, I write to inform you that we understand your request, would like to assist in enhancing service to project developers, participants etc. and therefore will make available the Word versions of large scale methodologies to the public. Word versions of SSC methodologies were made available to the public a while ago as project developers and project participants may directly submit directly requests for revision and clarification of SSC methodologies. To date, Word versions of large scale methodologies have been made available only to DOEs as DOEs are the only ones allowed to submit requests for revision and clarifications.

Yours sincerely,

Daniele Violetti  
Secretary to the CDM Executive Board
